Task Site

Micro Natural w/ Quad S4 Ports

$91.64

The Micro Natural S4 Keyboard Platform combines all the standard Micro Natural features with the System 4 Port options. The System 4 option allow users to customize their workstation and create a unique, universal platform with multiple accessories. These accessories can be plugged into each of the four corners of the platform and placed into different positions, accomodating a mouse, writing, documents, calculators, and peripherals. Add, remove and rearrange on-the-fly - no tools required!

The Micro Natural S4 Keyboard Platform features a 21 inch wide surface and curved edge for today's popular natural shaped keyboards such as the Microsoft Natural Keyboard and non-skid pads to prevent the keyboard from slipping and moving around. This keyboard tray when combined with any of the optional accessories provides a truely universal keyboard platform with virtually unlimited options and uses.

The Micro Natural S4 Keyboard Platform can also be customized to use our System 2 port option. Each of the port options 2 and 4 offer the respective number of ports on the underside of the platform. This platform due to the depth cannot be customized for the System 6 option.

This board includes four (4) open S4 Ports, click "Custom System" to add S4 accessories.
